

**CLOVELLY EAGLES' PLAYER SELECTION  
AND  
PARTICIPATION POLICY**

**Clovelly Eagles' Principles for Player Selection and Participation**

1. The Club values player participation and enjoyment above results on the field.
2. The Club acknowledges that, because of the nature of junior club rugby, a team may include players of differing levels of skill and ability.
3. The Club will seek to ensure that all players are given a “fair go”, regardless of skill and ability.
4. The Club will support its coaches and managers in attempting to create a safe environment where all kids can improve their skills and play positive, enjoyable rugby.

**Guidelines for Implementing Principles**

1. The selection of the team and the participation of each player shall be at the discretion of the team management consistent with the principles set out above.
2. Any issue with the team selection or player participation should be dealt with at first instance by team management.
3. The management and/or parent and/or player has the option of raising the issue with a Club Committee member appointed by the Club Committee to deal with the issue.
4. The Club Committee member so appointed shall assist the team management/parent/player in attempting to resolve the issue.
